At Pine Grove Elementary, we ensure equity and opportunity by implementing a data-driven, prevention-based framework to improve learning outcomes for every student. This is accomplished through a layered continuum of evidence-based practices and systems.

Pine Grove focuses on providing education and activities about Health and Wellness in order to address the needs of the whole child. PGE incorporates physical and mental health into classroom lessons and whole school activities which promote resilience, mindfulness and healthy choices. Our school community believes Health and Wellness positively impacts learning, academic growth, and life-long success of all students.

Family and community members play a critical role in supporting learners within the Panther community. Higher student achievement happens when families, community members, and staff work together for the betterment of Pine Grove. Involvement in Curriculum Night, Parent-Teacher Conferences and PGEA activities are just a few ways to make this happen.

Pine Grove Elementary provides a culture of Positive Behavior Instruction and Support (PBIS). The main focus of PBIS is to provide a clear system of expected behaviors. Self-reflection, self-regulation, and restoration of relationships are the main areas of focus. Through PBIS, we will work to create and maintain a productive, safe environment for students, staff and the community.

MULTI-TIERED SYSTEMS OF SUPPORT
HOW WE CARE FOR EVERY PANTHER

All Pine Grove students receive a rigorous, relevant, and differentiated academic experience. Personalized learning interventions are provided for students in need of greater academic support such as Response to Intervention, Gifted Education, and Special Education. This layered continuum of services ensures every student receives equitable academic support that is culturally responsive, needs based, and developmentally appropriate through interventions which range from universal (every student) to targeted (some students) to intensive (few students).

Each Pine Grove Panther receives a safe and secure place to learn and grow. Students are exposed to prevention-based and targeted lessons, strategies, and conversations that lead each child to be successful in school. The positive, supportive culture at Pine Grove empowers students to understand themselves and others while making successful academic, social, and emotional choices. The mental health programming pair with appropriate interventions and work with students, families, and teachers to ensure each child reaches their maximum personal potential, allowing them to be emotionally healthy, lifelong learners and resilient community members.
